<b>FINISH</b>	Hard UV-Cured Oil
<b>TEXTURE</b>	Wire Brushed

**NEW:**

Available in Herringbone! Limited Run

This wide plank french white oak flooring is created using a live sawn French Oak to show all of its character - filled knots, eased edges and a tight grain pattern are enhanced with wire brushing and hand tooling. Our unique color process creates a natural finish with white colorant captured in the grain and distinctive wire brushing.

Sawyer Mason floors are constructed from real wood. Wood is a natural material derived from a living tree. Thus, every piece of Sawyer Mason flooring will have a unique appearance often expressed as naturally-occurring color variation, texture, and grain patterns.

In person and online photographic images, or samples provide a representation of the product's appearance, but are not always comprehensive in terms of the full range of color, texture, and grain variations found in the finished product. Images provided on the Sawyer Mason website, as well as any pamphlets or brochures provided, are for reference only and should not be used as the sole basis for choosing a particular style of flooring.
