Maintenance Kit for Oiled Floors

(Atlantic, Back Bay, Developer, Shoreline & Vineyard Collections)

Kit Includes:

Rubio Monocoat Surface Care Spray: Ready to use, non-residue cleaner
Rubio Monocoat Natural Soap: Concentrated version of Surface Care Spray
Rubio Monocoat Refresh Eco Spray: To restore the texture of the finish
Rubio Monocoat Universal Maintenance Oil: Used to touch up damaged or scratched areas

Cleaning:

Cleaning should only be done with the recommended Rubio Monocoat products.

Vacuum or sweep the floor.
Use the Natural Soap or Surface Care Spray .
Dampen a terry cloth mop with cleaner mixture (follow directions on bottle) or spray the Surface Care Spray on part of the floor. Clean that part of the floor. Rinse the terry cloth with clean water and wring it out. Repeat this routine on the rest of the floor.
Always use a damp mop, and not a wet mop. Do not leave any water on the floor.

Refresh:

Refresh Eco Spray is ready to use revitalizing treatment that refreshes, restores and protects your floor. Use the Refresh Eco Spray when the surface feels and looks dry or rough in areas where the finish has worn due to heavy traffic.
Eliminate dirt and dust from the floor.
Spray the Refresh Eco Spray on to the surface to be treated, or apply the product with a cloth. Use a minimal amount of the product to prevent the floor from becoming sticky.
Allow the product to react for a couple of minutes.
Wipe the surface dry with a cloth or paper towel; polish until the surface feels completely dry.
Work in zones that can be fully wiped dry within 15-20 minutes.

Spot Repairs:

Superficial scratches can be repaired with RMC Universal Maintenance Oil. Using a clean cloth, apply a small amount of oil to the cloth and buff the scratched area. Wait 2-3 minutes, then buff off excess oil using a clean cloth. Allow to dry one hour.
