| <b>TEXTURE</b>   | Wire Brushed                           |

Tonal grays are captured beautifully in this grey oak flooring. Developer Tisbury offers the warmth of hand-hewn floors with hand-scraped and wire-brushed texture in a less character-filled and narrower plank than the Shoreline Collection Tisbury.

Sawyer Mason floors are constructed from real wood. Wood is a natural material derived from a living tree. Thus, every piece of Sawyer Mason flooring will have a unique appearance often expressed as naturally-occurring color variation, texture, and grain patterns.

In person and online photographic images, or samples provide a representation of the product's appearance, but are not always comprehensive in terms of the full range of color, texture, and grain variations found in the finished product. Images provided on the Sawyer Mason website, as well as any pamphlets or brochures provided, are for reference only and should not be used as the sole basis for choosing a particular style of flooring.
